

Curwensville Area School District
Success Story

The 24-25 school year again brought a bounty of Local Sweet Corn for students. Our 2024 graduate, Dylan Henry aka “Corn Man”, took over his grandfather's business in 2019, at the age of 14. Dylan plants over 18 acres of bicolor, yellow, and white sweet corn. Sweet corn is one of the crops they grow and is also a working dairy farm milking seventy cows with a total herd size of 140. Dylan is a 6th generation farmer.

Curwensville Area School District continues to source local fruits and vegetables. Students were excited to enjoy an ear of corn from one of our alumni.
